

Please help us prevent the spread of COVID-19.

At Kumsheen, the health and safety of our guests, staff, and community has always been our main priority, so this year is no different. We are taking our operations during the COVID-19 pandemic very seriously. To ensure the lowest possible risk of transmission of the virus, we are implementing new health protocols in accordance with Public Health Authorities including the BC Centre for Disease Control, Work Safe BC, and our Provincial Health Officer and Minister.

We are regularly monitoring updates, and adjusting our operations to ensure the highest level of health and safety measures possible at a given time.

To reduce the risk of virus transmission, here is what you can expect from us:

- Strict and frequent cleaning and disinfection measures of surfaces and touchpoints
- Practicing physical distancing measures on the resort and on the river
- Mask requirements inside all buildings and whenever physical distancing cannot be maintained
- Daily health checks for all staff
- New check-in procedures to limit contact and ensure physical distancing
- A 100-per-cent, all-in focus on client and staff safety

To ensure the success of these measures, we rely on the full cooperation of our valued guests. Here is what we are asking of you:

- Do not visit the Resort or come rafting if:
 - You feel ill
 - You have been exposed to someone who is ill
 - You have been outside the country within 14 days of visiting
- Practice physical distancing at all times if possible (think +2m)
- Frequently wash and sanitize your hands
- Always carry a mask with you and wear whenever required, including inside all building and whenever physical distancing cannot be maintained
- Store your personal belongings in your vehicle if you are not using the resort's campgrounds or accommodations
